Company Overview

Company	Hansong M&T Co., Ltd.
President	Haewoo Lee
Established	99.07.01
Business	Cutting tool manufacturing
Address	15-12, Dongtansandan 6-gil, Hwaseong-si, Gyeonggi-do, Republic of Korea
Telephone	+82-31-419-4441
Fax	+82-31-419-4445
E-mail	hsinfo@hsmnt.com

Company History

1999 - 2006

Establishment & Product Innovation

- 1999.07 Establishment of 'Hansong M&T'
- 2001.03 A-PRO end mill launched
- 2003.02 Diamond coated D-PRO end mill launched
- 2006.03 H-PRO end mill launched
- 2006.04 ISO 9001 certification
- 2006.07 Launching medical tools business
- 2006.08 Obtaining a utility model: Ball end mills
- 2006.09 Obtaining a utility model:
Rotational cutting tools with marking parts
- 2006.12 Obtaining a utility model: Medical cutting tools

2007 - 2018

Development & Technology Innovation

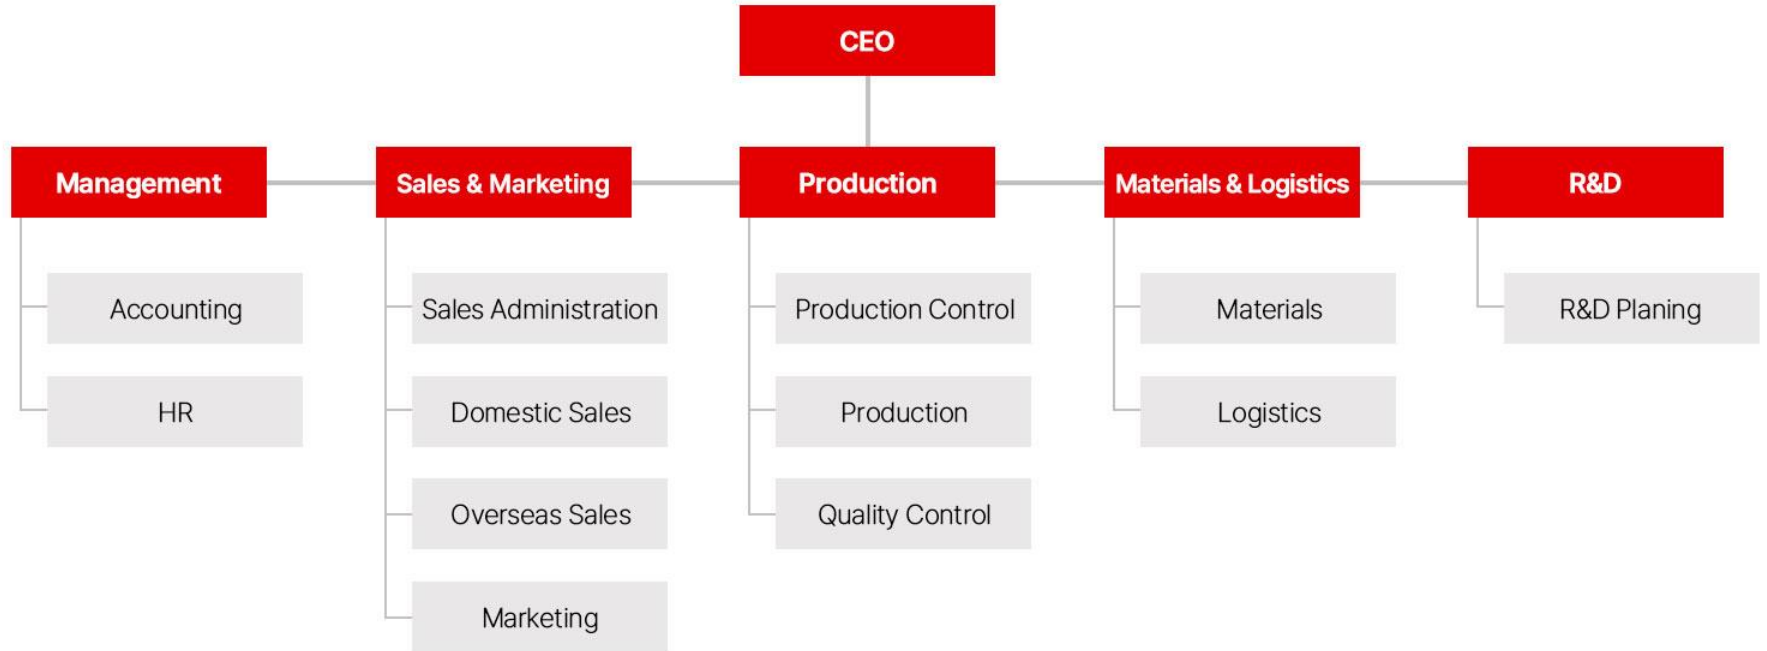

- 2007.02 Selected as INNO-BIZ
- 2008.05 Selected as MAIN-BIZ
- 2009.01 First development and mass production of milling bur for dental field in Korea
- 2009.05 Start a national tool project for Inconel milling
- 2010.03 Obtaining the certification of a company specializing in materials and components
- 2012.06 ISO 14001 certification
- 2015.06 Mass production of glass ceramic milling tools
- 2016.10 S-PRO-AL-PRO end mill launched
- 2016.11 Establishment of an affiliated research institute
- 2018.06 Initiated the production of R-PRO end mill
- 2018.07 ISO 13485 certification

2019 - ing

Management & Marketing Innovation

- 2019.06 Initiated the production of X-PRO end mill
- 2019.07 The 20th anniversary of Hansong M&T
- 2019.12 Obtaining the CE certification
- 2020.01 Designated as promising small and medium-sized enterprises for export
- 2021.01 Signed a business agreement with swedish hydraulic chuck manufacturer 'ETP'
- 2021.05 Selected as a partner company by the korea Institute of Production and Technology
- 2021.07 Selected as a family company by the korea atomic Energy Research Institute

Dental Milling Bur

Core Values

Quality

High quality
Uniform quality
Improve performance

Product

New product development according to demand
Benchmarking new products from market leaders
R&D investment of every year

Appointment

Productivity improvement
Small quantity batch production
Inventory management based on sales

Product Features

Produce **defect-free** products

The **lowest tolerance** in the domestic tool

Excellent cutting surface

High precision due to micron management

Representative Products

For Super-hardened steels and high-speed milling

: R-PRO series

Specialized in processing of Super-hardened and heat-treated steel series

For Hardened steels and high-speed milling

: H-PRO series

Suitable for machining carbon steel, alloy steel, molds and mold parts. Cutting edge shape is optimized for high-speed milling in the range of HRC 40~55.

For Roughing and Semi-Roughing

: X-PRO series

Specialized for carbon steel, low alloy steel, and cast iron processing. New cutting edge shape improving for wear resistance is applied.

For SUS & difficult-to cut-materials

: S-PRO series

Specialized in machining of difficult-to-cut materials such as stainless, titanium, and hastelloy. Recommend for aerospace and energy-related industries

For Graphite & Ceramic

: D-PRO series

Specialized for processing graphene, glass fiber reinforced plastic, and graphite. The coating stability is increased by applying pure diamond coating.

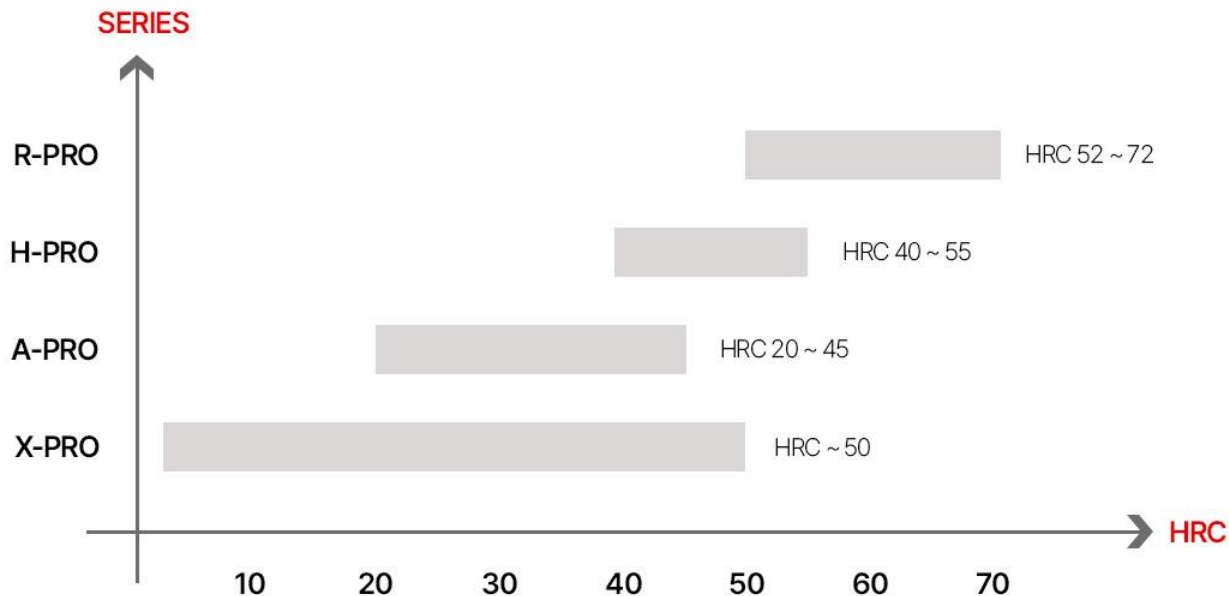

For Aluminum

: AL-PRO series

Specialized cutting edge design for Aluminum cutting. (Aluminum, AL60, AL70 series machining)

Product Range of Use

According to HRC range, we suggest below end mill series
